SUMMARY

AI/ML product leader with 8+ years building agentic AI, LLM/RAG, and ML decisioning systems in regulated fintech and enterprise environments.

EXPERIENCE

PRODUCT MANAGER, AI

New York, NY

Capital One

2025-Present

- Led 0-1 neurosymbolic multi-agent GenAI system automating 1M monthly fraud/operations reviews, cutting review time from 20 to ~2 minutes; built POC, established program, recruited PM/SWE team, and owned architecture & eval harness
- Delivered \$11M annual savings by defining technical requirements and API/data-integration jobs for ML vendor integration; navigated risk, legal, security, and governance requirements in a highly regulated bank environment
- Drove \$5.2M annual savings by expanding account-takeover ML model across 6 wallet/debit service use cases; prioritized roadmap with model coverage, risk reduction, false-positive impact, and operational lift
- Led product specs and data strategy for enterprise authentication-modernization MVP across identity, fraud strategy, engineering, and data science; balanced customer friction, risk controls, and scalable policy architecture

PRODUCT MANAGER

Los Angeles, CA

WebMocha

2022-2025

- Identified 40%+ guide traffic and 15% zero-result searches in HPE sales knowledge base; shipped semantic/RAG search that reduced guide traffic 80% and lifted clicked-result dwell 20%
- Secured HPE AI-governance approval for proprietary-content retrieval by designing authentication, output auditability, and cost observability into the architecture; converted compliance blockers into launch criteria
- Led Stanford Medicine content-tagging ML product for 1.7M monthly users; reduced manual tagging 60%, saved ~\$400K annually, and increased content engagement 25%
- Delivered \$720K in value by replacing SaaS search with in-house AI search/LLM app; owned LangChain, LlamaIndex, Chroma, Neo4j, and GPT-4o architecture

HEAD OF PRODUCT

Los Angeles, CA

REUP

2017-2022

- Reduced image processing backlog by 75% by developing and implementing ML and computer-vision based CNN models
- Built C2B marketplace to 1,200+ suppliers and \$15M GMV; cut manual workflows 40% with inventory automation while growing early GMV ~40% QoQ

EARLIER RELEVANT EXPERIENCE

- Led 22 investments across \$50M/\$100M funds at Base Ventures/Brightpath including Olly (exit) and 6Sense; analyzed markets, benchmarks, and diligence data
- Drove +25% average campaign lift at Reach IQ for clients including X/Twitter, Reformation, fintech, and consumer tech

EDUCATION

THE WHARTON SCHOOL, UNIVERSITY OF PENNSYLVANIA

Philadelphia, PA

Master of Business Administration

UNIVERSITY OF PENNSYLVANIA

Philadelphia, PA

Bachelor of Arts in Economics
